**One Week in a Villa in the South of France**  
**Visit beautiful Bar-sur-Loup, in the Alps Martine**

This 300-year-old villa has all the charm of the area with all the modern conveniences to make your stay comfortable. The villa sleeps six, with three bedrooms, 2 1/2 baths. It also has a DSL line and satellite dish. You can watch the sunrise with your cup of coffee on the balcony overlooking the gardens in the master bedroom. Downstairs is a gourmet kitchen (complete with modern appliances, including a dishwasher, microwave, and garbage disposal), and full service laundry room.

The dining room/living room invites guests to relax in front of a large stone fireplace, play the baby grand piano, watch DVDs and videotapes, or tune into TV stations in French, German and English - or just build a fire and watch the flames. Spend the day walking in the town of Le Bar-sur-Loup or take a beautiful 40 minute drive to Nice then return to your Villa for a bottle of French wine by the fire or in your private Jacuzzi. There are endless possibilities here for a vacation beyond your imagination. For more information and to see more photos, go to [www.massteanne.com](http://www.massteanne.com)
